## PROJECTS

<https://github.com/shrey6162>

### Questionnaire —

An online examination system with features like a notice board and functionality of taking live online classes using 'jitsi-meet' api. That makes the questionnaire a full package for online education.

### CodeStorm —

An online IDE with code editor and compiler. Supports coding in C++, Java and Python. Built with React, Express and Node. Compiler functionality has been added using the 'jdoodle' api.

### Runrate —

Cricket news and live scores website created using 'cric' api, that features cricketing news, articles, live scores, players stats and team rankings.
